Fishing in Bear lake

Please note that the Trout fishing limit in Bear Lake is two per day and all other CDFW rules apply when fishing in the lake including the need for a current fishing license.

As members of our community, please be sure that you, your guests, and other visitors you encounter at the lake stay in compliance with these [simple yet important rules](#).

Katherine,

The summer season in Bear Valley is here and Bear Lake is full and ready for recreation. We would like to direct your attention to the recently revised Bear Lake rules that can be found [on our website](#).

As you know, use of our lake and its beaches is restricted to members and their guests. No pets are allowed in the water or on the beaches or shoreline of this important water supply lake.

Tennis Anyone?

With the 2015 summer season starting early we wanted to let you know that the Bear Valley Tennis Club is accepting new memberships. The initiation fee for a tennis club membership is \$600 and the annual membership fee is \$100 (waived for the first year). For details [click here](#). If you are interested please contact Ann Wolff via [email](#).

- More info about the tennis club can be found on the BVRI website [here](#).

Lot Inspections for Fire Safety Compliance: June 1 - June 15

This could be the worst year for fire danger and bark beetle infestation ever so it's important that Bear Valley property owners comply with state law regarding creation of defensible space. BVRI volunteers will be inspecting all lots between June 1 and June 15 for fire safety, CC&R compliance, and posting of your street address. The Bear Valley Fire Department tells us that burn permits may not be issued in a few more weeks due to dry conditions. Burning is being permitted now, so if burning is part of your defensible space plan, you should do it soon. Once burn permits are no longer issued, wood debris will have to be hauled away. More information about clearing and hauling is available on our Website [here](#).

BVRI got a grant to do fuel management in common areas. You may see crews working in the common areas on weekdays this summer. The [chipper program](#) is available this summer too. For information, call Supervisor Terry Woodrow at 209-753-2551.

We are counting on you to do your part in keeping our forest and our community safe from fire danger.

Sincerely,

The BVRI Board
