Drones Banned in and Around Bear Lake

Drones and Osprey don't mix! These buzzing machines are disturbing the delicate habitat of our friendly Osprey who nest around Bear Lake.

Ann,

The BVRI Board has voted to ban drones and other flying machines above Bear Lake or within 50 feet of the shoreline. Drones interfere with animals like ospreys which make the Lake their home.

Drones are also annoying to most PEOPLE enjoying the lake as well.

Beach Reminders

We have a few quick reminders for your visits to Bear Lake:

- Beach use is restricted to BVRI members and their guests, as well as parties who

rent homes from BVRI members. If a beach visitor does not fall into these categories, they will be asked to leave the beach.

- Adam Fox is the beach attendant for 2016. He may ask your name or address to confirm that you are a member. Please let your guests/renters know your name and BVRI membership status.
- No dogs are allowed on the beaches, shoreline, or in Bear Lake per state regulations
- No cars are allowed on the dirt roads leading to the Big or Small beaches. The easiest place to launch boats is at the end of Lake Road where there is direct lake access.
- Boats must be stored on the wooden rack unless the rack is full. In that case the boats should be placed next to the rack. Starting last year, all boats left on either beach must be registered using [this form](#) on the BVRI website. You can give the form to the beach attendant or email it to Kim LeMieux as shown on the form.
- The fishing limit in Bear Lake is 2 fish per person. If possible, please throw back healthy fish that are smaller than 12 inches in length as these are the fish that are working hard to reduce the algae growth in the lake.

We look forward to seeing you at the music festival!

Sincerely,

The BVRI Board
