**Greetings!**

Dear BVRI Members,

On Tuesday, a group working on village transportation sent an email survey to all Bear Valley property owners. The survey is intended as a preliminary, non-binding check of community interest in supporting transportation from the Village to the Mountain and back, including the current Skyline bus and potentially a chair lift from the village to the mountain.

The survey was targeted at Bear Valley property owners, since the costs of different transportation options are likely to be borne by property owners.

The BVRI board suggests that you respond to this email survey to make your voice heard on these important matters. The survey was sent to one email address for each house/lot, so you may need to check multiple email addresses to find it. Being a survey, it may also be in your spam folder, or if you use gmail it may be within the Promotions tab.

If you have not received an email with the survey but would like to participate, please contact BVRI board president Colin McKee at [colinbmckee@gmail.com](mailto:colinbmckee@gmail.com) and he will help you get a survey invite.

Thank you -

The BVRI board
